For beauty and lavishness "Who Can Tell" was conceded to be easily the finest thing produced by the American Expeditionary Force in France. The Jewish Welfare Board, which financed the show, spared no expense in making the production a theatrical marvel. No one who saw it will forget the exquisite costumes and groupings.

Through the whole-hearted cooperation of the Division Commander, Major General William Weigel, Mr. Mac Donald and those who worked with him were able to overcome the enormous difficulties which such a production entailed.

The first performance of "Who Can Tell" took place at Gondrecourt (Meuse) France, the then headquarters of the 88<sup>th</sup> Division. It ran for three weeks during which time all the men in the division saw it. They were brought in trucks into Gondrecourt from their billets in the surrounding country.

"Who Can Tell" then went into Germany, where it was performed for the army of occupation, and subsequently to Paris. In the French Capital "Who Can Tell" was played for eleven nights to capacity houses at the magnificent Champs Elysses Theatre. At one of the performances President Wilson and his party were among the most enthusiastic in the audience.

The sudden return home of the division brought the brilliant career of "Who Can Tell" to a close.
